[Handwritten signature/initials]

The Special Engineer,
Bombay Municipal Corporation,
Bombay,

Dear Sir,

On behalf of Messrs. Godrej & Boyce Mfg. Co. Ltd., I am submitting to you a diagrammatic plan of the Master Plan at Vicroli.

I gathered from our talk of 20th. November 1956 that the Municipality by means of a clover-leaf could grant an entry from the proposed express highway into the town and the positioning of such entry would be left to the choice of Messrs. Godrej & Boyce Mfg. Co. Ltd.

The enclosed plan shows the position of the entry located so as to serve the proposed township in a best manner possible. Kindly confirm the position as acceptable by you.

The importance of finalising the location of the entry is very imperative, since it is the determining factor for the road pattern within the town, and eventually siting of residences and other buildings which are awaiting construction.

Thanking you in anticipation for an early reply.

Yours Faithfully,
